EIGHT PAGES.

WEDNESDAY, JULY 22, 1908.

Dr. Parks, of Irvington, says that the general use of cistern water and screen doors has nearly put the doctors out of business. As long as the mosquitoes, the flies and spring water had their sway, he says, the doctors had plenty of work. No greater boon has ever come to the human family than the wire screen door. The time was when only the well to do could afford screen doors and windows. Now every home in town and country has them and Mr. Mosquito and Mr. Fly can no longer spread their bacteria germs broadcast.

There is no politics in local option. It appeals to any good citizen, Democrat, Republican, Protestant, Catholic and every one who desires to uplift his county, city and town.

There is no place for the saloon in Cloverport. The people don't want it and they are not going to have it. The blind tiger is bad enough but not near so bad as the open saloon.

If you are for temperance and the elimination of the drink habit from your town and county get busy. Get to work yourself and put your neighbor to work.

There are many fine crops of tobacco along the branch. Farmers in that section will have fine fat pocket books when time for selling comes.

There ought to be a Woman's Club organized in every voting precinct in Breckinridge county to work for local option.

Fifteen hundred majority for local option in Breckinridge county. That's what every lover of good order ought to work for.

Nothing scares a politician like a local option fight. Its like a snag in a river, one and all steer clear of it.

If you don't want your paper stopped please renew before time expires.

Splendid rain in this section last Monday. It was needed badly.

"If the Eye Is Maimed"

Necessity gives to the eye a precious power of seeing, and in the same way it gives a precious power of feeling to the whole body. Sometimes it seems as if the very substance of my flesh were so many eyes looking out at will upon a world new created every day. The silence and darkness which are said to shut me in open my door most hospitably to countless sensations that distract, inform, admonish and amuse. With my three trusty guides—touch, smell and taste—I make many excursions into the borderland of experience which is in sight of the city of light. Nature accommodates itself to every man's necessity. If the eye is maimed so that it does not see the beautiful face of day, the touch becomes more potent and discriminating.
